SUMMARY

A motivated Web Developer with a Bachelor's degree in Information Technology from the University of Education. Skilled in modern web technologies such as React.js, Node.js, Express.js and MongoDB. Adept at problem-solving and delivering high-quality solutions in collaborative environments.

PROJECTS

Personal Portfolio

- Developed a personal portfolio using HTML, CSS and Javascript for a dynamic and responsive user interface.
- Utilized CSS for efficient and scalable styling, improving the design and maintainability.
- Implemented responsive design for multi-device compatibility.

E-Commerce Website

- Built a responsive e-commerce website using React.js and CSS, featuring sign-up/login functionality with form validation.
- Integrated external APIs for real time data management, ensuring smooth and secure user interaction.

TO-DO LIST

- Developed a dynamic to-do list application in React Js.
- Implementing key features like task addition, deletion, and completion.
- Utilized state management for real-time updates and optimized user experience with interactive UI elements.

TUNE-VIBE MUSIC WEB APP

- Develop a Full-stack Music streaming Website.
- Integrated artist registration feature, allowing users to apply and be verified as artists. Enabled artists to upload, manage, and share their own songs, with options for profile customization and track performance analytics.
- Utilize technologies like React Js, Node Js, Express and MongoDB
- Designed a responsive, intuitive UI with seamless navigation and real-time search functionality.
